Homework Resource Booklet  
Year 5

For you to keep at home  
(also available on the school's website)

## Spelling Homework

It is important to bear in mind that apart from the 'common exception words', children are learning the letter string, sound or spelling rule - *not the specific word*. For example, when learning words with the -ay letter string (and they are given *day, play, say, way, stay*), we might also test to see if they can spell *may* and *bay*.

Children will be given spellings from the list to learn and tested on these regularly.

Below are some ideas that you may wish to use at home to help to learn spellings. Frequency of practice throughout the week is important; little and often is better than one long session.

### Spelling Roll-A-Word

Start with the first word in your spelling list. Roll a die and complete the activity for the number you roll. Continue with the rest of your list.

	Write your word in a sentence.
	Draw a picture of your word.
	Write a synonym of your word.
	Write an antonym of your word.
	Write the definition for your word.
	Write your word three times.

As you write, sound out the letters/syllables.

Write the words out 3 times each. Look, spell, cover, write, check.

Copy the word out and highlight or underline the tricky part.

## How to encourage neat handwriting

It is important to practise spellings using your neatest handwriting and correct joins. Age related expectations in handwriting can be found in the Writing End of Year Expectations (EYE) towards the back of this booklet. The 'feel' of a word can help when learning to spell.

### Getting ready to write

Seating and posture:

- A tripod grip is the most efficient way of using a pencil and should be encouraged in early writing
- Chair and table should be at a comfortable height
- Encourage children to sit up straight and not slouch
- Left hand should be used to steady the paper for right handers
- Tables free of clutter
- Room well lit
- The paper should be placed to the right, slightly tilted to the left

Left handers:

- Paper should be tilted to the right
- Right hand should be used to steady the paper

Lower case letters:

abcdefghijklmnopqrstuvwxyz

Capital letters:

ABCDEFGHIJKLMNOPQRSTUVWXYZ

Numbers:

1 2 3 4 5 6 7 8 9 0

## Joined Handwriting in Years 5 and 6

What you can do at home to improve and develop handwriting:

- Practise consistency and size of letters
  - Practise using a diagonal joining line
  - Practise leaving an equal space between letters
  - Practise joining to the letter y
  - Practise using a horizontal joining line
  - Practise the size and height of letters
  - Practise joining from the letter i
  - Practise joining to and from the letter v
  - Practise consistency in forming and joining letters
  - Practise speedwriting
  - Practise crossing double tt on completing the work
  - Practise joining to and from the letter e
  - Practise joining to and from the letter w
  - Practise printing
  - Practise drafting and editing
  - Practise joining to the letter t
- 
- Ensure letters are consistent in height and size
  - Practise with punctuation
  - Practise break letters
  - Practise joining from the letter m
  - Ensure the ascender on the letter t is the correct height
  - Practise spacing within words
  - Develop fluency
  - Practise forming and joining the letter f
  - Practise presentation
  - Practise speed writing
  - Look at different handwriting styles

## Example of handwriting joins and break letters (Y2 - Y6)

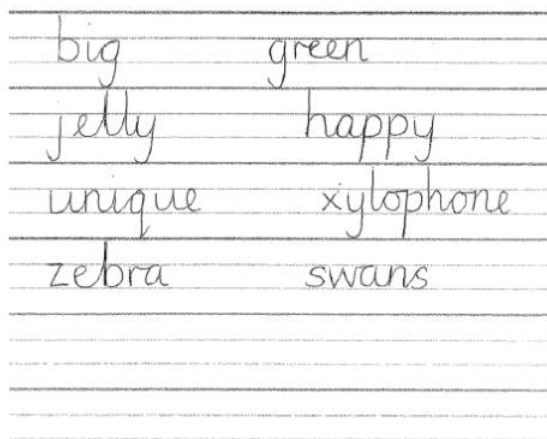

The four joins:

1. To letters without ascenders
2. To letters with ascenders
3. Horizontal joins
4. Horizontal joins to letters with ascenders

abcdefghijklmnopqrstuvwxyz

The break letters (letters that aren't joined from) are:

b g j p q x y z s

## Times Tables and Passport

It is crucial that you know multiplication and division facts to  $12 \times 12$  by the end of Year 4.

They help not only with multiplication and division calculations, but enable you to work more fluently with fractions - which now comprise a large part of the maths curriculum (the bulk of fractions teaching coming in Year 3).

You must have rapid recall of multiplication and division facts for:

2s 5s and 10s by end of Year 2  
3s 4s and 8s by end of Year 3  
All of them up to  $12 \times 12$  by end of year 4

## How the Passports Work

### To achieve Bronze Award:

You need to be able to recite your chosen multiplication table *rapidly*, on your own, *without error*.

You should learn it as 'one two is two, two twos are four, three twos are six' and so on.

### To achieve Silver Award:

You need to be able to have *rapid recall* of any multiplication fact from the chosen table *in any order* EG 'Six twos?' 'Nine multiplied by two?'

### To achieve Gold Award:

You need to be able to use multiplication facts to answer corresponding division facts for that times table EG 'How many twos are there in eight?'  
'What is ten divided by two?'

As well as adults working in the classroom, members of the SLT will be available to test children wishing to go for bronze, silver or gold awards in their passport.

Your recall must be rapid and accurate to achieve the award.

## Learning Times Tables

It can be difficult at the start. These suggestions will help you to learn your times tables more easily.

### Practise every day

- Find a regular time to do it - perhaps walking to and from school or during the drive.
- Keep a steady rhythm - it makes learning and recall easier.
- When starting to learn times tables, it's often the starting number that is difficult - use your fingers as you recite to keep track of where you are.
- If you are secure at bronze level, the silver and gold are easy.
  - Help yourself and your friends by quizzing each other.
- *Multiplication* can be done in any order - so if you know  $2 \times 5$  you also know  $5 \times 2$  (see the grid on the next page and shade in the ones you can recall).
- There are lots of ICT games to help you learn them and test yourself before trying to go for bronze, silver or gold at school.
  - Use Times Tables Rock Stars as an online resource.
- Remember that everything gets easier the more you practise.
  - Persevere and don't give up. If you are finding it very challenging, let your teacher know.
    - Set yourself a challenge and go for it.

Use this grid to highlight the multiplication facts that you can recall rapidly.

x	1	2	3	4	5	6	7	8	9	10	11	12
1	1	2	3	4	5	6	7	8	9	10	11	12
